AI Powered Purchase Order to Sales Order Creation

Seamlessly Convert Purchase Orders (PO) into Oracle EBS Sales Orders in an automated fashion - Our AI driven utility automates the entire workflow right from PO extraction in emails or from folders to sales order creation in Oracle EBS.

How It Works?

1. **Intelligent PO Monitoring & Extraction**

   ▪ AI agent monitors your inbox for new POs in real-time.

   ▪ Extracts key details customer, line items, quantities, pricing

   ▪ **Multi-Processing Options:**

     o Secure Closed LLM Processing – Mask sensitive data and extract info via enterprise grade AI.

     o Open-Source Local Processing – Keep data inhouse with high performance servers.

     o Azure Tenant Processing – No sensitive data leaves the tenant.

2. **Automated Oracle EBS Integration**

   ▪ Extracted data is seamlessly pushed to Oracle EBS via REST API.

   ▪ Instant confirmation or error feedback from EBS.

3. **Smart Error Handling & Recovery**

   ▪ **Auto-Correction Requests** – If PO details are incorrect, the system provision notifying the sender for corrections.

   ▪ **Duplicate PO Handling** – Automatic detection and provision to archive duplicate POs.

   ▪ **Reprocessing Capability** – Retry failed POs with a single click.

4. **Real-Time Dashboard & Analytics**

   ▪ **Daily/Monthly KPI** - # of PO's received, processed, failures etc.,

   ▪ **Search & Audit** - Quickly locate any PO and review its status details.
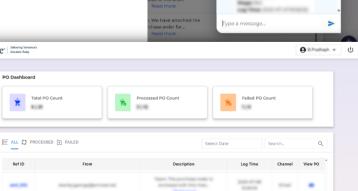

5. **Chatbot Assistant**

   ▪ Process a new PO through chatbot/upload PO.
   ▪ Check the status of an existing order.
