ennVee®

AI Powered
Expense Management Application
Smart, Secure, and Seamless

Streamline expense reporting with cutting edge AI, multi mode processing, and dynamic policy compliance.

Salient Features

AI driven Expense Processing
- Automatically extracts and auto-fills expense details from receipts (e.g., amount, date, vendor).
- Intelligently infers expense type - travel, meals, etc.,, currency, and domestic/ international categorization.

Dual Processing Modes
Online Mode:
- Secure login via biometric/Face ID (mobile) & SSO enabled.
- Scan or upload receipts for instant AI processing.

Offline Mode:
- Email receipts to a designated ID. AI processes them and notifies the user for verification.

Real Time Policy Compliance Checks
- Flags violations for eg: exceeded hotel allowance, alcohol expenses, duplicates, non standard bills etc.
- Allows submission with warnings, routed to managers for exception approval.

User & Manager Convenience
- Edit overrides trigger warnings for audit trails.
- Multi format report exports.

Smart Workflow & Approvals
- Dynamic approval hierarchies with configurable workflows.
- Managers can approve/reject via app or email notifications.
- Three-Panel Approval View:
  - Expense Summary -overview
  - Expense Details - line item breakdown with attachments
  - Exception Details - policy violations highlighted for action.

Exception Handling & Reimbursement Logic
- AI splits expenses into eligible/per policy and exceptions (eg: $100 approved + $25 flagged).
- Managers decide whether to approve/ reject exceptions, action auto adjusts reimbursement totals.

Smart Insights & Natural Language Queries
- Generate reports via text commands eg: Show Q3 travel expenses for 'X" client.
- Predefined standard reports (eg: monthly spend by category) auto-generated at set intervals.

Seamless Accounting Integration
- Direct sync with accounting systems for effortless bookkeeping.

Why Choose Our App

✓ **Faster processing** – AI reduces manual entry by 90%

✓ **Policy aware** – Proactive compliance checks

✓ **Flexible** – Works online/offline, on mobile or desktop

✓ **Insightful** – NLP powered analytics for data-driven decisions

Transform expense management with intelligence and ease.
