

AI Resume Grader for Smarter Hiring

Skip the manual grind, let AI instantly grade, rank, and shortlist resumes with precision.

Salient Features

- **Auto-Fill Applications** – AI extracts and auto fills candidate details from uploaded CVs.
- **AI Scoring & Reasoning** – Basis defined evaluation parameters (skills, location, JD match, etc.,) per job, AI scores each application with reasoning for fair shortlisting.
- **Smart Dashboard** – Visualize candidate distribution, grading trends, and AI driven insights.
- **One Click Actions** – Pre-selection of candidates by AI plus manual provision to shortlist, reject or hold candidates in bulk and automated email responses.
- **Parameter Optimization** – AI provides intelligence in highlighting the parameter that gives maximum selection uplift. Manual provision to adjust weightage to maximize candidate selection & improve hiring quality.
- **Comparison Analytics** – Compare old vs new grading models basis parameter recalibration for key decisions.

Transform your recruitment workflow with AI intelligence
